Forest Ecology and Management, 54 (1992) 345–346
Elsevier Science Publishers B.V., Amsterdam

Author Index

Ares, A. and Peineman, N. (Bahía Blanca, Argentina)
Provisional site quality evaluation for coniferous plantations in Sierra de la Ventana, Argentina 89
Barclay, H.J., *see* Marshall, V.G. et al.
Bashford, R., *see* Candy, S.G. et al.
Brown, S., *see* Lugo, A.E. and Brown, S.
Candy, S.G., Elliott, H.J., Bashford, R. and Greener, A. (Hobart, Tas., Australia)
Modelling the impact of defoliation by the leaf beetle, *Chrysophtharta bimaculata* (Coleoptera: Chrysomelidae), on height growth of *Eucalyptus regnans* 69
Covington, W.W. (Flagstaff, AZ, USA) and Sackett, S.S. (Riverside, CA, USA)
Soil mineral nitrogen changes following prescribed burning in ponderosa pine 175
De Mendonça Bellei, M., Gil, M. (Florianópolis, SC, Brazil) and Garbaye, J. (Seichamps, France)
Mycorrhizal succession in young *Eucalyptus viminalis* plantations in Santa Catarina (southern Brazil) 205
Del Amo, S., *see* Ramos, J.M. and del Amo, S.
Elliott, H.J., *see* Candy, S.G. et al.
Fuller, L.G., *see* Reed, D.D. et al.
Garbaye, J., *see* de Mendonca Bellei, M. et al.
Gil, M., *see* de Mendonca Bellei, M. et al.
Gömöry, D. (Zvolen, Czechoslovakia)
Effect of stand origin on the genetic diversity of Norway spruce (*Picea abies* Karst.) populations 215
Gottfried, G.J. (Flagstaff, AZ, USA)
Growth and development in an old-growth Arizona mixed conifer stand following initial harvesting 1
Greener, A., *see* Candy, S.G. et al.
Hetherington, E.D., *see* Marshall, V.G. et al.
Holmes, M.J., *see* Reed, D.D. et al.
Jones, E.A., *see* Reed, D.D. et al.
Leakey, R.R.B. (Penicuik, UK)
Enhancement of rooting ability in *Triplochiton scleroxylon* by injecting stockplants with auxins 305
Lugo, A.E. (Rio Piedras, PR, USA) and Brown, S. (Urbana, IL, USA)
Tropical forests as sinks of atmospheric carbon 239
Mahoney, J.M. and Rood, S.B. (Lethbridge, Alta., Canada)
Response of a hybrid poplar to water table decline in different substrates 141
Marshall, V.G., Barclay, H.J. and Hetherington, E.D. (Victoria, B.C., Canada)
Lodgepole pine response to nitrogenous fertilizers applied on and off snow, and to associated damage by small mammals 225
Peinemann, N., *see* Ares, A. and Peinemann, N.
Pyšek, P. (Kostelec, Czechoslovakia)
Dominant species exchange during succession in reclaimed habitats: a case study from areas deforested by air pollultion 27

Ramos, J.M. and del Amo, S. (Mexico D.F., Mexico)
Enrichment planting in a tropical secondary forest in Veracruz, Mexico 289
Rayner, M.E. (Canberra, A.C.T., Australia)
Evaluation of six site classifications for modelling timber yield of regrowth karri (*Eucalyptus diversicolor* F. Muell.) 315
Reed, D.D., Jones, E.A. (Houghton, MI, USA), Holmes, M.J. (Durham, NH, USA) and Fuller, L.G. (Blacksburg, VA, USA)
Modeling diameter growth in local populations: a case study involving four North American deciduous species 95
Roberts, M.R. (Fredericton, N.B., Canada)
Stand development and overstory–understory interactions in an aspen–northern hardwoods stand 157
Rood, S.B., *see* Mahoney, J.M. and Rood, S.B.
Sackett, S.S., *see* Covington, W.W. and Sackett, S.S.
Simandl, J. (České Budějovice, Czechoslovakia)
The distribution of pine sawfly cocoons (Diprionidae) in Scots pine stands in relation to stand edge and tree base 193
Stohlgren, T.J. (Davis, CA, USA)
Resilience of a heavily logged grove of giant sequoia (*Sequoiadendron giganteum*) in Kings Canyon National Park, California 115
Tolhurst, K.G. and Turvey, N.D. (Creswick, Vic., Australia)
Effects of bracken (*Pteridium esculentum* (Forst. f.) Cockayne) on eucalypt regeneration in west-central Victoria 45
Turvey, N.D., *see* Tolhurst, K.G. and Turvey, N.D.
Vanclay, J.K. (Frederiksberg, Denmark)
Assessing site productivity in tropical moist forests: a review 257

Forest Ecology and Management, 54 (1992) 347–349
Elsevier Science Publishers B.V., Amsterdam

Subject Index

Atmospheric carbon
Tropical forests as sinks of atmospheric carbon 239
Auxins
Enhancement of rooting ability in *Triplochiton scleroxylon* by injecting stockplants with auxins 305
Beetle
Modelling the impact of defoliation by the leaf beetle, *Chrysophtharta bimaculata* (Coleoptera: Chrysomelidae), on height growth of *Eucalyptus regnans* 69
Bracken
Effects of bracken (*Pteridium esculentum* (Forst. f.) Cockayne) on eucalypt regeneration in west-central Victoria 45
Burning
Soil mineral nitrogen changes following prescribed burning in ponderosa pine 175
Carbon sinks
Tropical forests as sinks of atmospheric carbon 239
Conifer stand
Growth and development in an old-growth Arizona mixed conifer stand following initial harvesting 1
Coniferous forests
Provisional site quality evaluation for coniferous plantations in Sierra de la Ventana, Argentina 89
Deciduous forests
Modeling diameter growth in local populations: a case study involving four North American deciduous species 95
Defoliation
Modelling the impact of defoliation by the leaf beetle, *Chrysophtharta bimaculata* (Coleoptera: Chrysomelidae), on height growth of *Eucalyptus regnans* 69
Deforested areas
Dominant species exchange during succession in reclaimed habitats: a case study from areas deforested by air pollution 27
Diameter growth
Modeling diameter growth in local populations: a case study involving four North American deciduous species 95
Enrichment planting
Enrichment planting in a tropical secondary forest in Veracruz, Mexico 289
Eucalyptus
Effects of bracken (*Pteridium esculentum* (Forst. f.) Cockayne) on eucalypt regeneration in west-central Victoria 45
Evaluation of six site classifications for modelling timber yield of regrowth karri (*Eucalyptus diversicolor* F. Muell.) 315
Modelling the impact of defoliation by the leaf beetle, *Chrysophtharta bimaculata* (Coleoptera: Chrysomelidae), on height growth of *Eucalyptus regnans* 69
Mycorrhizal succession in young *Eucalyptus viminalis* plantations in Santa Catarina (southern Brazil) 205

Fertilizers
Lodgepole pine response to nitrogenous fertilizers applied on and off snow, and to associated damage by small mammals 225
Genetic diversity
Effect of stand origin on the genetic diversity of Norway spruce (*Picea abies* Karst.) populations 215
Growth
Growth and development in an old-growth Arizona mixed conifer stand following initial harvesting 1
Harvesting
Growth and development in an old-growth Arizona mixed conifer stand following initial harvesting 1
Leaf beetle
Modelling the impact of defoliation by the leaf beetle, *Chrysophtharta bimaculata* (Coleoptera: Chrysomelidae), on height growth of *Eucalyptus regnans* 69
Logging
Resilience of a heavily logged grove of giant sequoia (*Sequoiadendron giganteum*) in Kings Canyon National Park, California 115
Mycorrhizal succession
Mycorrhizal succession in young *Eucalyptus viminalis* plantations in Santa Catarina (southern Brazil) 205
Nitrogen
Soil mineral nitrogen changes following prescribed burning in ponderosa pine 175
Overstory
Stand development and overstory–understory interactions in an aspen–northern hardwoods stand 157
Picea
Effect of stand origin on the genetic diversity of Norway spruce (*Picea abies* Karst.) populations 215
Pinus
Lodgepole pine response to nitrogenous fertilizers applied on and off snow, and to associated damage by small mammals 225
Soil mineral nitrogen changes following prescribed burning in ponderosa pine 175
The distribution of pine sawfly cocoons (Diprionidae) in Scots pine stands in relation to stand edge and tree base 193
Pollution
Dominant species exchange during succession in reclaimed habitats: a case study from areas deforested by air pollution 27
Poplar
Response of a hybrid poplar to water table decline in different substrates 141
Productivity
Assessing site productivity in tropical moist forests: a review 257
Evaluation of six site classifications for modelling timber yield of regrowth karri (*Eucalyptus diversicolor* F. Muell.) 315
Regeneration
Effects of bracken (*Pteridium esculentum* (Forst. f.) Cockayne) on eucalypt regeneration in west-central Victoria 45
Regrowth
Evaluation of six site classifications for modelling timber yield of regrowth karri (*Eucalyptus diversicolor* F. Muell.) 315

Resilience
Resilience of a heavily logged grove of giant sequoia (*Sequoiadendron giganteum*) in Kings Canyon National Park, California 115
Rooting ability
Enhancement of rooting ability in *Triplochiton scleroxylon* by injecting stockplants with auxins 305
Sawfly
The distribution of pine sawfly cocoons (Diprionidae) in Scots pine stands in relation to stand edge and tree base 193
Secondary forest
Enrichment planting in a tropical secondary forest in Veracruz, Mexico 289
Sequoia
Resilience of a heavily logged grove of giant sequoia (*Sequoiadendron giganteum*) in Kings Canyon National Park, California 115
Site productivity
Assessing site productivity in tropical moist forests: a review 257
Site quality
Provisional site quality evaluation for coniferous plantations in Sierra de la Ventana, Argentina 89
Snow
Lodgepole pine response to nitrogenous fertilizers applied on and off snow, and to associated damage by small mammals 225
Soil
Soil mineral nitrogen changes following prescribed burning in ponderosa pine 175
Stand development
Stand development and overstory–understory interactions in an aspen–northern hardwoods stand 157
Stand edge
The distribution of pine sawfly cocoons (Diprionidae) in Scots pine stands in relation to stand edge and tree base 193
Stand origin
Effect of stand origin on the genetic diversity of Norway spruce (*Picea abies* Karst.) populations 215
Substrates
Response of a hybrid poplar to water table decline in different substrates 141
Succession
Dominant species exchange during succession in reclaimed habitats: a case study from areas deforested by air pollution 27
Timber yield
Evaluation of six site classifications for modelling timber yield of regrowth karri (*Eucalyptus diversicolor* F. Muell.) 315
Triplochiton
Enhancement of rooting ability in *Triplochiton scleroxylon* by injecting stockplants with auxins 305
Tropical forests
Assessing site productivity in tropical moist forests: a review 257
Enrichment planting in a tropical secondary forest in Veracruz, Mexico 289
Tropical forests as sinks of atmospheric carbon 239
Understory
Stand development and overstory–understory interactions in an aspen–northern hardwoods stand 157
Water table
Response of a hybrid poplar to water table decline in different substrates 141
